ALUMINCO-BG

„АЛУМИНКО - БГ" ООД е създадена през 2008г. и е утвърден лидер, с международно признание в сектора на АЛУМИНИЕВИ ПРОФИЛИ И СИСТЕМИ. Съчетават традиционните с новите, модерни и практични архитектурни тенденции, класическа линия и голямо разнообразие.

АЛУМИНИЕВИТЕ ПРОФИЛИ И СИСТЕМИ на „АЛУМИНКО - БГ" включват:

- **ПАРАПЕТИ "CLASSIC"** - наподобяват ковано желязо, подходящи за стълбища, огради и портални врати.
- **ПАРАПЕТИ "CRYSTAL LINE"** – иновативни и елегантни стъклени алуминиеви парапети.
- **ПАРАПЕТИ "ELUX"** – елоксирана квадратна и кръгла система.
- **ПЕРГОЛА и ЗАСЛОНИ** - проектирани като една цялостна архитектурна система, придържаща се възможно най-близко до класическата дървена пергола, позволява да се интегрира с парапети и покритие от поликарбонатни плоскости.
- **ПАНЕЛИ ЗА ВРАТИ** - външни и интериорни, интегрирани с модерни осигурителни и витражни стъкла, както и с декоративни елементи.
- **ОСВЕТИТЕЛНИ ТЕЛА и ГРАДИНСКА МЕБЕЛ** - лесен монтаж и инсталиране. Дават цялостен завършек на ландшафта.

ПРЕДИМСТВА на Алуминиевите профили и системи на „АЛУМИНКО – БГ":

- Олекотена конструкция с лесен монтаж – не изискват специални умения и инструменти, инсталират се при завършени сгради и поставени подови настилки;
- Устойчиви на корозия и гниене - не изискват постоянно боядисване и третиране с химически препарати;
- Предлагат се в богата цветова гама – по **RAL, SPECIAL MAT** и **ДЪРВОВИДНО**;
- Изпълнени са по метода на електростатичното боядисване - удължава живота и се гарантира максимална степен на устойчивост при екстремални климатични условия;
- Подходящи за приложение в жилищни, търговски и обществени обекти - могат да се изпълняват, както на открито, така и на закрито.
- Практични, олекотени, естетични, класически и иновативни.

Изделията са сертифицирани за качество по норма **ISO 9001:2000**, както и за опазване на околната среда по норма **ISO 14001:1996**.

Всичко това прави продуктите на „Алуминко-БГ"

Classic Traditional

Traditional pergolas are resistant to all weather conditions, easy to assemble and maintenance free. Powder coating finishes are available in many colors of seaside class quality and in several wood imitation shades.

La pergola traditionnelle peut être posée sur tout type de bâtiment, donnant un aspect classique. Elle résiste aux conditions atmosphériques facilement assemblée et installée, et ne nécessitant aucun entretien particulier. Grâce à la peinture électrostatique, une haute protection contre la salinité est atteinte. La pergola traditionnelle d' ALUMINCO est disponible en tous les coloris RAL et teintes bois.

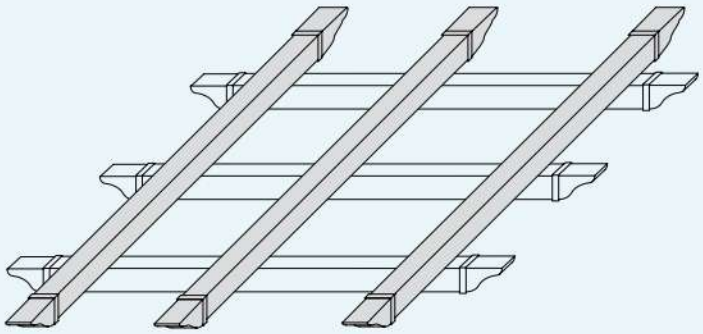

Designed in an identical line with that of classic wood pergolas.

Dessinée en ligne identique à celle de la pérgola classique en bois.

Traditional - With canvas roofing

The combination of traditional pergola with canvas roofing offers additional protection and shading, lending simultaneously the sense of noble, particularly when combined with wood imitation shades. This solution is ideal for applications intended for traditional summerhouses, giving the charm of country style.

Pergola traditionnelle en toile

L' usage de toile accentue la protection solaire. Sa combinaison avec des teintes bois donne un résultat d' esthétique exceptionnel. Solution idéale pour de maisons de campagne et des maisons de style traditionnel offrant le charme requis par la tradition.

Entrance Canopies

Entrance canopies are an ideal solution for the protection of main entrances and professional spaces from rain and sun. They are made of pure aluminium, powder coated, in traditional and modern designs. They are available with solid polycarbonate Lexan® sheets. They are easily installed without intervening in the building's architecture, available in four beautiful designs, providing an excellent aesthetic and functional result.

Available in standard dimensions (100, 120, 140, 180 and 220cm - depth 100cm depending on the design and thickness of the construction).

Auvents pour les portes d'entrée

Ces auvents sont la solution idéale pour protéger les portes d' entrée des maisons et des bâtiments de société de la pluie et le soleil. Ils sont fabriqués en aluminium et sont disponibles en dessins traditionnels et modernes et de panneaux en polycarbonate Lexan®. Ils sont fixés facilement sans interférer sur l'architecture du bâtiment. Quatre dessins offrent un excellent effet esthétique et fonctionnel.

Disponible en panneaux de 100, 120, 140, 180 et 220cm et épaisseur 100cm.
